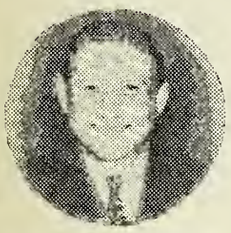
"THE COIN MACHINE MERRY-GO-ROUND"

BY BILL GERSH



DAMON RUNYON

Damon Runyon in his column "The Brighter Side" (Sept.9) bears out a prediction made by The Cash Box sometime ago when he writes relative to the general increase in gambling due to the war: "Slot machines, pin-ball machines and other mechanical devices to suck up the loose change of the public are found in many cities. The amount of money put into gambling in various forms in the United States has for years run into billions of dollars annually, but this year and the years of the duration will produce the greatest gambling totals in our history, because of the vast volume of money in circulation and the increasing curtailment of things to buy."

TRUCK GASOLINE

Too many of us, in our hurry these days, read headlines only. Due to this fact some of the leaders in this business became extremely frightened that their trucks would not get any more gas. Here are the facts: Joseph B. Eastman, ODT director said, "Few things are more essential to an all-out war effort than to keep our commercial vehicles, public and private, in active service." In addition to private passenger cars, exemptions include commercial vehicles operated for military services; those used by dealers exclusively for sales purposes (which instantly protects you for you are a dealer using your truck exclusively for sales purposes); and cars having a capacity of not more than seven persons which are used in group riding to carry persons to and from work.

GAS TAX

Decrease in revenue from gas taxes in July alone in the East coast rationed area for state treasuries showed a loss in Vermont of 36%, New Jersey dropped more than 35%, New York 27½%, Connecticut 28%, Massachusetts 33%, Florida 24%, etc., down the line. (These states can now gain taxes from coin games to help recover this loss. Intelligent coinmen can use these figures to good advantage.)

FACTORY MUSIC

Musicops are enthused over that article which first appeared in Forbes magazine and has since been reprinted in many publications including this month's issue of Reader's Digest, on how music helps stimulate factory workers and thereby speeds production tremendously. Many ops are now contacting leading factories in their cities on phono installations. Old models can be used. Records need not be changed but once every 2 or 3 weeks. Play control must be in hands of supervisor at factory. Dogs should be removed from coin chute or coin chute entirely removed. Setting up of auxiliary speakers intelligently is the big problem so that factory noise will not interfere with music itself. Suggest rental basis of $5.00 to $10.00 per week.

WAR PAYROLLS

Here's an idea of how war payrolls have gone up in the average town. Newark (N.J.) Clearing House Assn. reports that payrolls prepared for customers by 13 member banks for the 4 weeks period ending Aug. 29, totaled over 28 MILLIONS OF DOLLARS nearly TEN MILLIONS OF DOLLARS MORE than for the similar period in '41. And that's happening all over the country.

$94.95

Look in your pocket. According to the U. S. Treasury Dept. each person in the U.S. should have $94.95. This is based on the huge amount of money in circulation. (Last year at the same time it was only $73.09).

SOLDIER LIQUOR

Possible trend in liquor sales to men in uniform indicated by voluntary action of Atlantic City, N. J. tavern keepers who stop selling to men in uniform at 11:45 P.M. weekdays and at 1:30 A.M. on Sundays. This has met with general approval. Coingame play, tho, has not at all been affected by this cut down on soldier liquor sales.

RECREATION UP

Municipal expenditures for recreation on the upgrade because of increasing needs of war workers and service men, International City Managers Assn. reported. Figures submitted by 1,164 cities show that '41 national recreation program cost more than 30 MILLIONS OF DOLLARS. "Since tire and gas rationing are increasing the stay-at-home population", the Association reported, "increased expenditures will be necessary this year."

"THE COIN MACHINE MERRY-GO-ROUND"

"M.J."

The average coinman goes to bed these nights with a new malady (exclusively a coin machine sickness) known as "M.J." - or to be more explicit: - "mechanical jitters". The reason being he does not know when he awakes in the morning whether he'll have any mechanics left. And the problem is becoming more acute each day. Many a route has been chopped down to half and less because of lack of mechanics. Why not, then, call in some of the technical high school students and have your present mechanics train them (in your shop to begin with) and thereby assure yourself a fine and eager, youthful mechanic full of vim and vigor. (Be sure he's 16 or over.)

PHONOS LASTING

Leading musicops wondering whether phonos will continue to operate if the war goes on for a few more years. Claim that tubes and many parts are even now practically impossible to obtain. Answer is that over in England (where they have been plenty blitzed) phonos still operate. There is no doubt that American ingenuity will solve problems that will arise.

GET READY

First effects of the President's special rubber committee's report are now making themselves felt. National gas rationing; no more than 5,000 miles per passenger car per year; pooling of all transport, compulsory periodic check of tires; etc., etc. Get ready for the next bump (as noted in our Sept. 15 issue) by bringing in your outlying equipment and concentrating your route in a shorter radius. Or else —— buy a horse and wagon.

UPSTATE NEW YORK

With this issue of The Cash Box the leaders in Albany, Schenectady, Utica and Syracuse begin their subscriptions. Upstate New York is enjoying fine play. Music is very big. Slots, consoles, 1-Balls, 5-Balls, cig vendors, etc., etc., running good. "No complaints", report leaders here.

WANT TO BUY?

Don't be hesitant about featuring a wanted-to-buy ad in The Cash Box. These have produced marvelous results. Many of our subscribers have just what you want to buy. But, PLEASE do not expect to get merchandise at pre-war prices. If you need it - buy it NOW, the time you'll waste trying to save a buck or two - equipment will be working and earning the difference and maybe a little bit more for you.

PREDICTION

That the entire coinbiz is entering into the biggest play era in its history. As stated some issues ago this will start when the colder weather sets in. With gas rationing tightening up, with tires out, with more money in circulation than ever before in history, with women earning more than ever in their lives, with the close-to-home entertainment idea being sold to the public - and with all other factors equal - the big boom is getting ready to boom.

REMOTE INSTALLATIONS

Believe it or not more remote installations are now being made than for many previous months. Musicops setting spots as fast as they can (and at lower price to themselves) to get into the swing of this great music era. Auxiliary speakers may become a problem as these are getting harder to obtain.

PARTS

Parts from older equipment grow more and more important. Don't waste these. A little time and mechanical ingenuity and many a good machine can be put back into perfect working condition with parts from older numbers.

HONORABLE MENTION

It is not the policy of The Cash Box to give any publicity to anyone in this business unless this person has done something from which the entire business can benefit and done so unselfishly. This week we give honorable mention to Paul E. Davis and Al. Wertheimer of Davis Sales Company, Syracuse, N. Y. for the creation of a location circular explaining the problems of the music operators to the location owner in the most diplomatic and concise language we have ever read. In addition, this firm mailed these as a suggestion to everyone of their many friends thruout the country, the result being that dozens of other ops are now also having them printed. For such exceptional and unselfish effort to help benefit the entire industry we take this opportunity of giving these men and their firm HONORABLE MENTION.
